PROFILE

Web developer with 4+ years across custom web apps, WordPress/WooCommerce, Shopify themes and GoHighLevel automation. I build the software a business runs on, and ship live demos so clients see results early.

SKILLS

Web apps	React · Next.js · TypeScript · Tailwind · Supabase · PostgreSQL · RLS
E-commerce	WordPress · WooCommerce · Elementor Pro · Gutenberg · Shopify Liquid · OS 2.0
Automation	GoHighLevel · n8n · Webhooks · REST APIs · HMAC · Node.js · AI summaries
Delivery	GitHub Actions · Vercel · Docker · Core Web Vitals · SEO · DNS/SSL

SELECTED WORK

LeadIQ AI	Next.js SaaS
Real-estate lead workspace: Supabase auth, PostgreSQL with Row Level Security, rule-based qualification, validated CSV import/export, sales stages, notes, tasks and automation rules.	
Live ↗ GitHub ↗	
Lead Qualification & CRM Integration	TypeScript service
Signed webhook intake, schema validation, explainable lead scoring, optional AI summaries with fallback, GoHighLevel contact upsert, idempotency, audit records, Docker and CI.	
GitHub ↗	
CommerceOps Pro	WooCommerce plugin
Inventory classification, low-stock queries, stock-change audit records and a protected REST dashboard endpoint; Docker, PHPUnit and WP coding-standard CI.	
GitHub ↗	
Aster & Vale	Shopify OS 2.0 storefront
Jewelry storefront in Liquid with JSON templates, variant-aware products, size-guide dialog, gift/personalization options and mobile purchase controls.	
GitHub ↗	
Dental Lead to Patient System	GoHighLevel · 8-stage pipeline
Consultation calendar, two-step funnel, SMS reply/timeout branches and delayed follow-ups; kept in draft pending controlled sending tests.	
GitHub ↗	
SupportFlow AI	AI support command center
Unified support queue, service-health analytics and AI drafting help for priority conversations.	
Live ↗ GitHub ↗	
Homeseekers Real Estate	WordPress · Elementor Pro
Real-estate site for the Abu Dhabi market with custom property fields, CRM-connected inquiries and LiteSpeed CDN performance tuning.	
Live ↗ Case study ↗	
Tvoxel School Suite	Product site · Education
Interactive product site for a school management platform: module explorer, parent app preview, rollout timeline.	
Live ↗
